# Millington City Limits Aerial View

# General Information

## **Millington's Government**

The City of Millington operates under a City Manager/Board of Mayor and Aldermen form of government. The mayor and seven aldermen are elected for four-year terms and are part-time positions. The Board of Mayor and Aldermen is the legislative and policy-making body of the City. The Mayor does not vote except to break a tie. By Charter, the Mayor is the chief executive officer and the City Manager is the chief administrative officer, responsible for day-to-day management of the City.

## **Fiscal Year**

As required by State law, the City operates on a fiscal year beginning on July 1 and ending the following June 30.

## **Basis of Budgeting**

While the city performs many services and both receives and expends money for many different purposes, it does not combine all those activities into a single set of financial records. Generally accepted accounting principles (GAAP) followed by governments in the United States require governments to utilize a concept known as fund accounting. The activities of the City are organized into funds, each of which are considered to be separate accounting entities. The basis of accounting used is determined by the type of fund. The city uses two types of funds, governmental and proprietary.

The City does not distinguish between Basis of Budgeting and Basis of Accounting, as reflected in the City's Annual Financial Statements. The principles set forth as the Basis of Accounting are strictly observed in the budgetary process.

The City budget for governmental funds is prepared on a modified accrual basis of accounting except for encumbrances. Unencumbered appropriations and encumbered appropriations for non-capital expenditures lapse at the end of each fiscal year, with encumbered appropriations for capital projects being carried forward to the next year. The budget for proprietary funds is prepared on an accrual basis of accounting

## **The City has these Governmental Funds:**

The **General Fund** is the primary operating fund of the City and accounts for all financial resources of the general government, except those specifically provided for in another fund. Most of the essential governmental services such as police and fire protection, community services, and general administration are reported in the General Fund.

The **State Street Aid Fund** accounts for the receipts and expenditures of the City's share of the proceeds from the state gasoline tax and gasoline inspection fees collected by the State of Tennessee.

The **State Drug Fund** accounts for the receipts and expenditures related to the City's share of proceeds from state-imposed drug fines and confiscations.

The **DEA Drug Fund** accounts for the receipts and expenditures related to the City's share of proceeds from federally imposed drug fines and confiscations.

The **Storm Water Fund** accounts for the receipts and expenditures related to the collection, transportation, treatment, and disposition of storm water.

The **Sanitation Fund** accounts for the receipts and expenditures related to sanitation services.

The **Capital Improvements Fund** accounts for the financing of major governmental fund capital assets/projects of the City.

The **CIP – Middle School Project – USDA Loan Fund** accounts for the management of the Millington Middle School Project which will be funded by a USDA Loan.

The **General-Purpose School Fund** is the primary operating fund of the School and accounts for all the financial resources of the School except those required to be accounted for in another School fund.

The **Schools Federal Projects Fund** accounts for the receipts and expenditures of the school's federally funded programs.

The **Schools Nutrition Fund** accounts for the receipts and expenditures related to the school's cafeteria operations. These funds are required to be maintained in a separate fund.

The **Schools Capital Projects Fund** accounts for all the School's capital improvement projects.

Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to private sector businesses.

#### **The City has these Proprietary (Enterprise) Funds:**

The **Water Fund** accounts for the activities of the City's production, storage, and transportation of potable water.

The **Sewer Fund** accounts for the activities of the City's collection, transportation, treatment, and disposition of wastewater.

### **Budget Process**

The budgetary process for the City of Millington begins in February with a meeting of the city manager, city directors and managers, where submission dates and parameters for budget requests are reviewed. Six months of actual data for the current fiscal year is given as a basis for departments to submit their estimates for the current fiscal year end. Departments are required to complete their budgetary requests for the new fiscal year and include justifications for any infrastructure, capital and program change requests. The Finance Department staff works with departments in reviewing personnel needs. The city administration reviews all requests on the timeframe as identified in the annual budget calendar. The final component of the budgetary development process is highlighted in a work session with the Board of Mayor and Aldermen. The Proposed Budget is presented to the Board of Mayor and Aldermen for adoption through two readings, including a public hearing.

### **Budgetary Control**

Formal budgetary accounting is used as a management control for all funds of the City. Budgetary controls are exercised both at the departmental level, with the adoption of the budget, and at the line item level through accounting controls. Additionally, budgetary control is maintained at the program level by the individual departments, acting in conjunction with the Finance Department.

Under provisions of the City's charter, the Board of Mayor and Aldermen annually enact by ordinance the operating budgets of the general, special revenue, capital projects and enterprise funds, which cannot exceed appropriation except by approval of the governing body. The total budgets of these funds constitute legal spending limits, requiring ordinance amendment. The City Manager and Finance Director together may approve transfers between accounts within a fund without the governing body's approval. The City Manager and Finance Director together may increase the budget for grants accepted by the Board by resolution. The Board must approve other transfers or requests for additional funds. Thus, departmental appropriations comprise a legal spending limit for governmental fund types, except for capital projects funds for which the project length financial plans are adopted. The basis of accounting applied to budgetary data presented is consistent with the appropriate basis of accounting for each fund type.

The Capital Projects Funds account for the receipt and disbursement of all resources used in the acquisition and construction of capital facilities where the construction period is expected to exceed one year, other than those financed entirely by Proprietary Fund Types. The primary funding sources are debt proceeds and General Fund transfers. The facilities constructed and assets acquired become a part of the City's fixed assets and are, therefore, recorded in the General Fixed Assets Account Group. The residual equity in Capital Projects Funds, if any, is returned to the General Fund upon completion of the project.

### **Operating Budget**

The operating budget will be based on the principle of financing current expenditures with current revenues or accumulated reserves. Operating expenditures will not be directly supported by debt. Expenditures shall include adequate funding for retirement systems and adequate maintenance and replacement of capital and operating assets. Budgeted expenditures shall reflect the City's perceived needs and desires of the community.

## **Revenues**

The operating budget will be developed with the objective of funding all well justified goals, while avoiding tax increases. The City will strive to diversify the revenue base, reducing its dependency on sales taxes. Revenues will be conservatively projected based on current information and historical trends.

User fees will be developed and continually reviewed to ensure that they recover the cost of services that are not universal to all taxpayers. In the Water and Wastewater Funds, user fees will provide full coverage of direct and indirect costs including depreciation. In the Sanitation Fund user fees will be maintained at a level to cover operating costs and build reserves for equipment replacement.

## **Expenditures and Expenses**

Governmental funds have expenditures while enterprise funds have expenses. Management of each department determines what is required to perform the services provided during the fiscal year. Expenditures/expenses are liberally estimated based on current information and historical trends in order to insure adequate funding.

## **Capital Improvements Program**

The Capital Improvements Program (CIP) will reflect a consensus of the perceived needs and desires of the community. The CIP will be cognizant of the financial impact on the applicable fiscal year and the City's past, present and future goals. The CIP will generally address those capital projects used for the acquisition or construction of major capital facilities.

The City will update and adopt annually a five-year CIP, including the annual Capital Improvements budget and a four year projection of capital needs and expenditures which details the estimated cost, description and anticipated funding sources for capital projects. The plan will include costs that have been estimated including consideration for inflation.

The City will maintain its physical assets at a level adequate to protect the City's capital investment and to minimize future maintenance and replacement costs. The budget will provide for the adequate maintenance and the orderly replacement of capital plant and equipment from current revenues where possible. Future maintenance or replacement costs will be factored into future years CIP as a result of the entry of a new project.

The first year of the five-year CIP will be the basis of formal fiscal year appropriations during the annual budget process. As part of the annual budget process, the CIP will be evaluated and adjusted with changes in priorities. If new project needs arise during the year, a budget adjustment identifying both the funding sources and project appropriations must be presented to the Board of Mayor and Aldermen (BMA) for approval. The approval must occur before active progress is made on the planning, design, or construction of the project. Projects may be granted exceptions as to promptly resolve any dangers to the community.

Projects will be monitored to ensure compliance with CIP Policy and Procedures. Projects will be entered into a timeline to produce a CIP schedule. Post-project evaluation reports will be used to determine the successfulness of a project.

**Financing**

The two basic approaches to funding capital projects are pay-as-you-go and pay-as-you-use. Pay-as-you-go means paying for the capital project out of current revenues at the time of expenditure. Pay-as-you-use means borrowing to finance the expenditure with debt service payments generated from revenues raised through the useful life of the project. The CIP will use a combination of these two financing methods. Capital projects are funded through debt, reserves, grants and other governmental sources. The average maturity of general obligation debt will be at or below 25 years. The Mayor and Board approved an exception to this policy for the \$26,000,000 USDA bond issue for schools.

**Debt Management**

Debt may be used to finance long-lived capital and operating assets for the City as well as the School District within the constraints of maintaining or improving bond ratings and debt service quality and payments. The City has an A1 credit rating from Moody's.

Debt policy and management provides for the protection of bond ratings, compliance with debt instrument provisions and appropriate disclosure to investors, underwriters and rating agencies.

# Fiscal Year 2026 Budget Highlights

**No changes in service levels** – Increased funding for vital services including Police, Fire, Sanitation, Public Works, and Parks and Recreation.

**Property Tax** – The State approved certified tax rate for 2025 is 1.1157. A tax rate of 1.2 is the proposal for Millington for the 2025 tax year. This adjustment is to offset possible appeals of the 2025 Reappraisal and establish needed revenue for ongoing improvements to quality of service and maintenance of infrastructure in Millington. It is also below the current tax rate of 1.4. Compared to other governments in the surrounding area, this is a conservative adjustment.

**Increased funding for Educational Facilities** – Continues at \$500,000 for the required maintenance of effort. Additional funding for deferred maintenance of City and Municipal School-owned educational facilities is available in the CIP budget.

---

## Public Safety

- Expand School Resource Officer (SRO) program from 1 to 3 officers to support school safety.
- Implement new paramedic pay scale to improve firefighter retention and save lives.
- Initiate detainee transfer program for jailers to reduce patrol officer transports to jails.
- Acquire land and design a new fire station.
- Purchase new fire pumper.

- Continue aggressive police vehicle replacement program and improvements to the Charles Pruitt Justice Center.
- 

## **Public Health & Quality of Life**

- Cross-train existing staff to improve animal control coverage in partnership with the Shelby County Health Department.
  - Support community-based animal control initiatives.
  - Expand youth and adult recreation, including a new youth soccer program.
  - Invest in parks, greenspace, and pedestrian infrastructure.
  - Build the City's first public dog park.
  - Partner with NSA Mid-South to install a Lone Sailor Memorial in Millington.
- 

## **Communications and Technology**

- Invest in ITS infrastructure and IT/cybersecurity personnel.
  - Focus on external communications and fund a Public Information Officer.
  - Implement live streaming technology for public meetings.
- 

## **Infrastructure & Capital Improvements**

- Complete Navy Road Streetscape Phase 2.02.
- Install a new traffic signal at Big Creek and Highway 51.

- Repave Wilkinsville Road from Highway 51 to Veterans Parkway.
  - Finalize improvements to the South Water Plant and upgrade the Water Distribution System.
  - Initiate water infrastructure replacement for Indian Meadows.
  - Establish a City Deferred Maintenance Account to proactively manage long-term facility needs.
  - Leverage state and federal funding for infrastructure improvements.
  - Begin update to the City's 20-Year Master Plan (currently at the midpoint).
- 

## **Education**

- Continue City funding of the Municipal School District at \$500,000 MOE and provide new funds to help address deferred maintenance at educational facilities.
  - Build an outdoor classroom at the Library.
  - Continue to back-stop the school's middle school expansion and associated \$30+ million USDA loan.
- 

## **City Employees**

- 5% pay increase for City employees.
- Fund second year of the Residency Bonus Program.
- Two new official City holidays and a bonus day for police officers and firefighters.
- Implement a \$20/hour minimum wage for full-time employees.

Full Time Staffing Detail		
Job Title	Grade	Number
Storm Water Coordinator	6	1
	Staffing Level	1

This fund accounts for the receipts and expenditures related to the collection, transportation, treatment and disposition of storm water. This fund is budgeted to reimburse the State Street Aid fund for 29% of its salary and fringe for personnel used to maintain the free flow of storm water. In addition, it reimburses City Hall for a portion of its staff.

Staffing Level	10	10	11
----------------	----	----	----

**Note: Cash on Hand as of March 31, 2025 = \$7,464,397**

*This fund accounts for the activities of the City's collection, transportation, treatment and disposition of waste water. The City allows the Navy to transfer waste water for NAS Mid-South from their collection system and also allows Shelby County to transfer from their limited collection system adjacent to the City in addition to serving the City. State law requires user fees to cover the cost of operations as well as improvements.*
